

Foundation Stage Family Learning Project

Theme: Why can't I have chocolate for breakfast?

Please complete at least one of the activities and return it to school before Friday 20th May.

Help a grown up at home to prepare some healthy recipes. Make a list of all the ingredients you use for each recipe. Think of an exciting way to share this experience with the class.

Try a new food and find an interesting way to share this experience with the class. You could write about it, take some photographs or even make a film clip all about it.

**Choose some different foods from your kitchen and solve the following mathematical problems:
Which is heaviest?
Which is tallest?
Which cost the most money?**

Become Willy Wonka and invent your own chocolate bar or healthy snack. You could cook it; name it; draw it; make a model of it; write a recipe for it or design the packaging.
