

Foundation Stage Family Learning Project

Theme: Are eggs alive?

Please complete at least one of the activities and return it to school before Friday 18th March.

Choose an animal that comes from an egg and create a poster or model to explain how it changes during its life cycle.

Make up your own story called the Magic Egg. Create a book, comic strip or a piece of writing to tell the story.

Have a go at cooking a recipe with eggs at home. Look at how the egg changes when you cook with it. Take some photos to show us how you get on.

Go on a visit to your local area, farm or a zoo. Can you find any animals that lay eggs? Where have they laid them? What are the eggs like? Write or draw something to tell us about your special day out.
