

Year 2 Family Learning Project

Choose at least one of these 'Towers, Tunnels and Turrets' activities to complete this term.

Make a detailed drawing of a castle, labelling interesting features that might be found inside or out. Can you find out about 'murder holes' or 'garderobes'?

Design and create a model of a famous or an imaginary castle using junk modelling materials. Why not start with cereal boxes and empty kitchen roll tubes?

Research some famous landmarks or structures from around the world such as the Eiffel Tower or the Leaning Tower of Pisa. Can you find out which country they are in?

Create a storyboard or a story map involving characters such as a princess, a knight and a dragon. Add words or sentences if you want to!
