

# Year 2 Learning Celebration

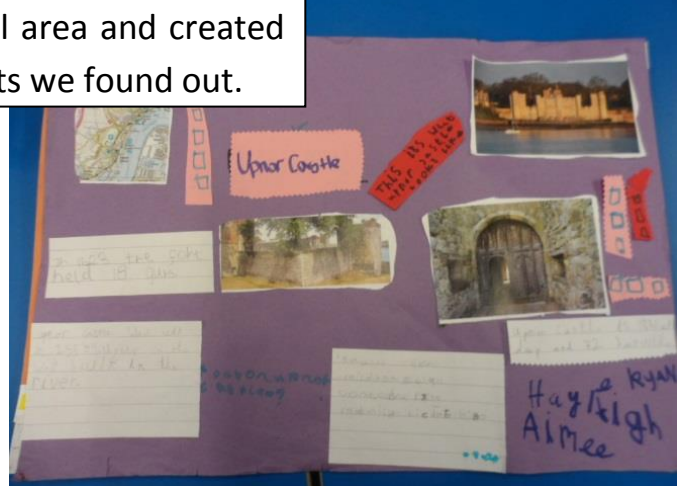

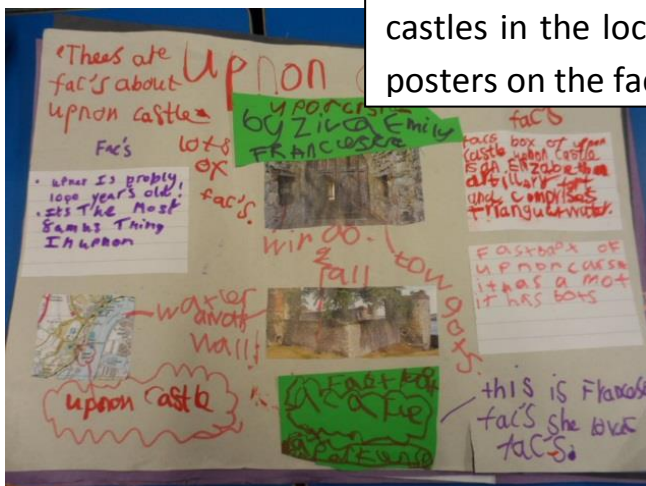

This term we have been learning all about Castles. We created timelines to show how castles have changed over time and what they have been used for over the years.

We really enjoyed the trip to Rochester Castle and the museum and learnt about how the castle has changed over the years. We all made it to the top of the castle even though it was very windy!

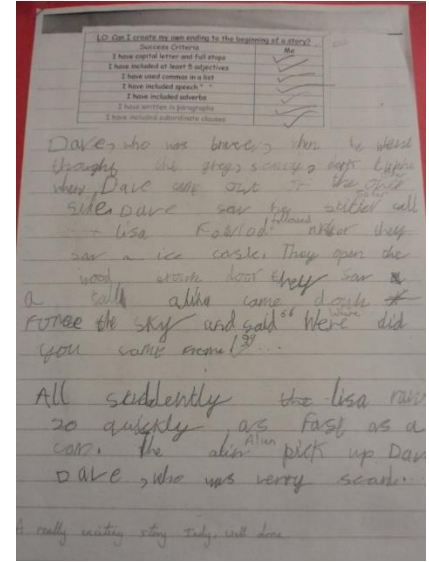

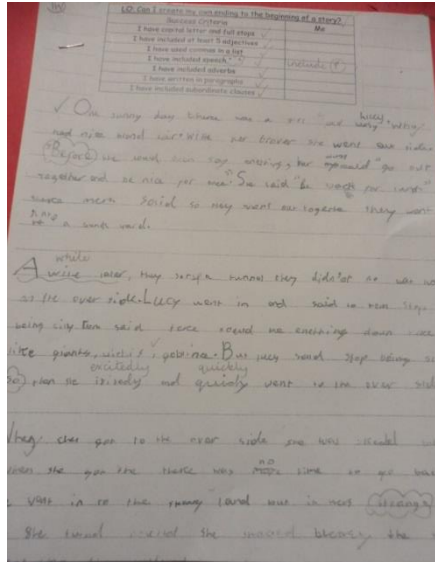

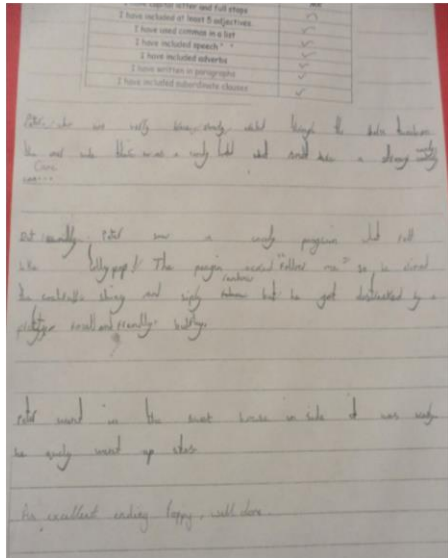

We also researched other famous castles in the local area and created posters on the facts we found out.

# The Tunnel

We enjoyed creating our own ending to the story 'The Tunnel'. At first we drew what we thought was at the end of the tunnel and then we put these ideas into our own exciting stories.

# Science

We have enjoyed learning about how to look after ourselves. We completed investigations on how exercise effects our heart rate and learnt about how to categorise food. We also created our own balanced meal we would serve for a school dinner.

## Simples

Our next learning project is 'Simples'. We will be learning about hot and cold regions across the globe. We will focus on the Kalahari Desert in South West Africa. This is the home of Sonny the Meerkat in the story book Meerkat Mail by Emily Gravett. We will also complete investigations on the weather in our local area and create our own inventions for measuring weather.
