

Year 2 Learning Celebration

This term we have been learning all about weather. We read the story Meerkat Mail by Emily Gravett and received a visit from Sunny the main character in the story.

We researched a lot of information about the Kalahari Desert, where Sunny lives, and then created non-fiction texts showing everything we had learnt.

We worked in teams to create different climates. We had to think about; what it looks like, what animals live there and the temperature it

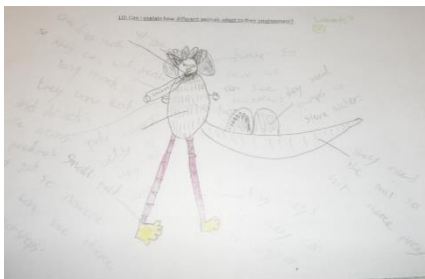

Design and Technology

In Design and Technology, we enjoyed creating our own weather measurers. We had to work in groups to use the materials provided to create our own inventions. We then tested them out to see if they worked.

Science

In Science, we have enjoyed learning about animals and how they are suited to their environments. We designed our own creatures who would be able to survive in more than one habitat.

Fire, Fire!

Our next learning project is 'Fire, Fire'. We will be learning about The Great Fire of London and will create timelines of the event and make comparisons between firefighting today and in the past. We will also design our own Tudor Houses and re-enact the fire!
