Our Learning this Term-

This term we have been learning all about living healthily. We have sorted different foods into healthy and less healthy, discussing which we can have every day, which maybe once a week and which rarely. We have learnt about different fruit and where in the world it grows. We have used fruit to make fruit salads and smoothies and have tasted some exotic fruits like pommegranate, dragonfruit and passion fruit. We have tried out different types of exercise in a bid to get fit and really enjoyed popping to Hoo recreation ground to try out the equipment there.

Now we all just need to keep practising what we have learnt! We have noticed that the children who eat school dinners are making much healthier choices now and adding fruit and salad to nearly every meal!

Hall of fame

Well done to all of our merit award winners this term!

Well done to...

Lola G, Leah B, Freddie M, Riley K, Alliyah T, Declan D,
Alex P, Miley P, Dylan F, Olivia HW, Ricky W, Tabitha P

Uniform

Thank you for naming uniforms. We still have new items without names in turning up however—please check the name has not washed out. Lots of children are having growth spurts now so please check your child's plimsolls and wellies still fit!

This smells like coconut. It smells very nice! I am adding it to my smoothie! Miley

I used flour and some food colouring and some water to make smoothies. That one was disgusting! It's just pretend. Alliyah

I was eating croissants and chocolate. Tamarin (world breakfasts day)

Our costumes for World Book Day

Look at our learning this term.

I was climbing over our new climbing frame. Amelia

I was doing some exercise. Your legs go to the sides very fast. You need to exercise everyday to be healthy. Tommy

I climbed all the way to the top. It was very high. Bonnie

We climbed on the net together. It was hard work. Zane
Exercise is very good for you. Isabella

Our Learning next Term

Next term our topic is: **Do dragons exist?**
We will be learning about dragons, castles and knights, princesses and princes. We will consider where dragons come from, where they live and what they can do.

We will read and create our own stories with dragons in.
We will learn about our body parts and what can go wrong with them. We will get to meet some real eggs and discuss what might be inside, as well as some fantasy eggs!
