

Year 3 Celebration Newsletter

We got to watch the Disney Jungle Book film to learn about the characters and describe

In science we looked at animals. We got to group animals in one lesson that's called classification!

We have written stories set in the Jungle and have used the classic story of Jungle Book to help us!

In maths we have learnt all about collecting data. We counted how many letters were in our names and made a bar chart!

We have learnt that the rainforest has lots of layers!

During Outdoor Classroom day we searched for twigs around the school grounds and then created Roman nu-

Year 3 Celebration Newsletter

Predators

This term we have been learning all about the rainforests around the world. We have paid a particular interest to the climates in those rainforests and have explored which animals live there. The classes have learnt the four different layers of the rainforests and I'm sure if you ask them, they will show you some actions too. In Year 3 enjoyed watching the Jungle Book to enable them to bring the characters and story to life for to inspire their writing.

Here are our highlights from term 5

Outdoor Learning Day!

Jungle Book

Scooter skills

Things to do in Medway over half term.

Sat 26th May—3rd June -**Crown Jewels Trail:** Rochester Castle

Sat 26th May—3rd June—**Dutch Raiders Trail:**
Upnor Castle

Sat 26th and Sun 27th May—**Pure Imagination:** Brooke Theatre

10th May- 31st May—**Cut, fold and create exhibition**
Peace Garden—Fort Amherst

28th May—3rd June—**Half Term Activity Trail**

Moving on to Term 6

This school year seems to have flown by! As we enter term 6 of Year 3 we will be expecting a final push from all children in attendance and effort in lessons. Please continue to support pupils in times tables at home to encourage them to pass the Spider Monkey or Capuchin Monkey. As well as this, we are working hard to fill as many gaps in spelling of the Year 3 word lists at the front of planners.

The term will have lots of exciting things happening as we lead up to the summer, however pupils need to remember that high behaviour expectations remain.

Flow

Next term, we will continue our Predators and Rainforests topic as we still have lots of exciting things to learn. We will then move on to explore our new topic called Flow.

Children will have the opportunity to learn about rivers in their topic work, alongside learning about plants in Science.

Monkey Maths

The children are very motivated by increasing their scores in their fortnightly tests.

Well done to these pupils who have passed Spider Monkey in Year 3 so far:

Jake Stratford
Connor Green
Kimora Haynes
Maddie Yates
Tilly Middleton
Ruby Misselbrook
Lauren Hatch
Peter-Junior Cornish
Emily Bunyan
Indy Rossitor
Joshua Boucher-Morris
Richard Rose
Emily Bassett
Summer Tullett
Dylan Duke
Scarlett English
Summer Hollingham
Finley Markey
Roxie Marie-Kenna

Well done to these pupils who have passed Capuchin Monkey in Year 3 so far:

Niamh McMonies
Noah Dodd
Ellis Arrowsmith
Ruby Misselbrook
