

Welcome to Year 1!

We are really looking forward to the fun learning activities we have planned this term. Such as looking at the human body in science, learning about our world and Christmas crafts.

Last term we had so much fun on our pumpkin picking trip! The children demonstrated our school values whilst on the trip and showed what respectful and confident learners they are. We were so proud of them. The trip provided lots of fantastic learning opportunities, such as learning where food comes from and developing our cooking skills when making some delicious pumpkin soup.

Reading books

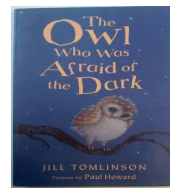

Reading books are changed on a Monday and Thursday. Please can you ensure your child's reading books and contact books are brought into school every day. Please can you date and sign their contact books as we are unable to change their books if this is not done.

Year 1

Learning Letter

2

This term's Super Six.

This term we will be launching the Curious Quest. It is a follow on from drawing club for year 1. It involves make believe characters and a magic mustard tin portal. Professor Clunk one of the characters will be sending us our English learning each week, to help him on his quest.

It is a fun and exciting approach which aims to give children a purpose for writing whilst developing joy for it. I'm sure your children will tell you all about this very exciting quest we are on.

Subject specific information
