

Last term in Year 4:

Last term, year 4 completed lots of learning about rivers.

We focused on how they are used by humans and, as well as looking at food chains of the animals that live there. The children understood how we use OS maps to identify key locations as well as using the keys effectively. Despite the postponement of our trip, the children showed great understanding of the features of a river and showed great enjoyment in showcasing their understanding.

Year 4 Learning Letter Term 2

This term:

Year 4 will be continuing their learning with an exciting science-based learning journey with the title - 'Can I journey through the digestive system?'. This will see us learn about the digestive system and the organs that are involved. The children will also learn about teeth and the differences between humans and animals. We are looking forward to our WOW moments, where we will take part in many exciting activities!

Times Table Focus:

1 x 7 2 x 7 3 x 7 4 x 7 5 x 7 6 x 7
7 x 7 8 x 7 9 x 7 10 x 7 11 x 7 12 x 7

Subject specific information
