

Welcome back

Welcome to Term Five, everyone! We have another amazing term lined up for our little learners, filled with fun and excitement. This term we will be exploring 'The Enormous Turnip', 'Kitchen Disco' as well as '10 Little Pirates', which we know the children will adore. We'll also be exploring the importance of healthy food and how it fuels our bodies, inspiring some tasty discussions! Additionally, we're thrilled to see the fantastic post-cards you send in via 'Evidence Me', which the children love sharing at home time. Let's make this term memorable together!

Term 5

Term Focus-

Expressive arts and design.

In Expressive Arts and Design, children are encouraged to safely explore a variety of materials, tools and techniques. They experiment with colour, design, texture, form and function, allowing their creativity to flourish. As they create, it's important for them to share their masterpieces, explaining the process behind their artistic choices. Role play also plays a significant role, as they utilise props and materials to bring characters in their stories to life. Imagination takes centre stage when they invent and recount narratives with peers and their teacher. They also enjoy singing well-known nursery rhymes and songs, performing these alongside others. This engaging approach fosters a love for the arts and enhances their expressive skills!

Phonics (Read Write Inc)

During term 5 we will continue our phonics adventure where we will embed our set one sounds and special friends whilst using them in our formation of words and sentences.

Maths

We will continue to develop our maths knowledge through engaging CP activities, children can explore subitising, shapes and patterns while they play. It's all about making learning practical and hands-on in a joyful environment!

Drawing Club

Term five will continue to allow the children to showcase their communicative skills through mark making and making conversation. So far this year our children have used Drawing Club as a space to showcase their literacy, numeracy and social skills.
